Managing Director Scott Baldwin said:

"Consistent with our strategy to maintain the strong growth momentum in secured automotive finance, we are pleased to have delivered over 50% growth in both Revenue and EBITDA from this product offering, driving overall group revenue and NPAT growth of 40% and 44.4% respectively. As we continue to expand the offering of secured automotive finance through all of our distribution channels, we expect this momentum to continue."

Larger amount longer term unsecured loans continue to grow, now representing over 50% of our Branch network's loan book. Small Amount Credit Contracts continue to generate solid revenue but are expected to continue to reduce as a proportion of the total Gross Loans Receivable, and make a lower proportionate contribution to overall revenues as our product offerings continue to diversify.

With the recent securing of debt, we are well funded to build on the existing growth momentum the business is experiencing and we look forward to an exciting financial year 2017."

Money3 announces a final FY16 dividend of 2.5 cents per share, fully franked, taking the full year dividend to 5.25 cents per share. The Board has considered the need to balance shareholder returns in the form of dividends versus capital growth through reinvestment of profit into the loan book, and advises that commencing FY17 the new dividend payout ratio guidance will be 30-50% of underlying NPAT.
